

JOSEPH HANGARTER

FULL-STACK SOFTWARE ENGINEER | PRODUCT-FOCUSED WEB DEVELOPMENT

Redmond, WA | 360-540-4463 | joseph.hangarter@yahoo.com | joseph-hangarter-portfolio.vercel.app | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Product-focused Full-Stack Software Engineer and U.S. Navy Veteran with 7+ years of coding experience and 4+ years of professional software engineering experience. Builds scalable, production-ready web applications using JavaScript, React, Next.js, Node.js, Supabase, PostgreSQL, and Tailwind CSS. Experienced with REST APIs, authentication, Stripe integrations, automated testing, cloud deployment, and modern SaaS development. Known for ownership, clear communication, and delivering polished user experiences.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, C#, Java, SQL, Python

Frontend: React, Next.js, Tailwind CSS, HeroUI, Framer Motion, HTML5, CSS3, responsive and mobile-first UI

Backend & APIs: Node.js, Next.js Route Handlers, REST APIs, Spring Boot, ASP.NET Core MVC

Data & Auth: Supabase, PostgreSQL, MongoDB, DynamoDB, Firebase, Azure AD/MSAL, NextAuth, Iron Session, JWT

Platforms & Integrations: Stripe, WordPress, Strapi, Hygraph, Vercel, AWS, Azure, BunnyCDN

Testing & DevOps: Playwright, Cypress, Jest, Pytest, xUnit, Docker, Git, GitHub Actions, CI/CD, Swagger

PROFESSIONAL EXPERIENCE

Software Engineer / Consultant | Helio Genomics | Remote

Nov 2021 - Present

- Develop and maintain responsive healthcare websites and internal tools using React, Next.js, JavaScript, Tailwind CSS, and API-backed workflows.
- Build and support authentication and session flows using Azure AD/MSAL, NextAuth, JWT, and Iron Session.
- Develop RESTful backend services and integrations across Node.js, Spring Boot, PostgreSQL, and headless CMS platforms.
- Integrate and maintain WordPress, Strapi, and Hygraph content workflows for public-facing marketing and product experiences.
- Create and maintain automated end-to-end tests with Playwright and Cypress to improve release confidence and reduce regression risk.
- Support production troubleshooting, performance review, responsive design fixes, deployment workflows, and cross-functional delivery with product, design, and compliance stakeholders.

SELECTED PROJECTS

WhereKeep | Creator & Full-Stack Developer | wherekeep.com

Next.js, JavaScript, Supabase, PostgreSQL, Stripe, Tailwind CSS, Vercel

- Planned, designed, built, deployed, and maintain a full-stack household inventory SaaS for tracking items, storage locations, quantities, expiration dates, shopping lists, and shared households.
- Implemented Supabase authentication and data architecture, role-based household access, Stripe subscriptions and webhooks, responsive dashboards, mobile workflows, and production deployment on Vercel.

Leah Naidoo Professional Website | Full-Stack Developer | [Live Site](#)

Next.js, JavaScript, Tailwind CSS, SEO, responsive design, Vercel

- Designed and deployed a polished, accessible professional website with responsive layouts, clear information architecture, SEO metadata, and a scalable foundation for future legal practice content.

ADDITIONAL EXPERIENCE

Data Analyst | Pactera Edge | Remote

Jun 2021 - Nov 2021

- Reviewed and categorized large volumes of email data to identify phishing, spam, and fraudulent content.
- Applied pattern recognition and quality-control procedures to improve training-data accuracy for machine learning and NLP models.
- Collaborated with QA and annotation teams to maintain consistency, compliance, and delivery quality.

Security & Surveillance Specialist | Swinomish Casino & Lodge | Anacortes, WA

Sep 2013 - Feb 2019

- Designed loss-prevention procedures estimated to save approximately \$250,000 annually and received an MVP nomination.
- Improved CCTV monitoring and incident-response workflows, reducing response time by 20%.
- Managed high-pressure incidents requiring accurate documentation, sound judgment, and clear cross-team communication.

Master-at-Arms (E-4) | United States Navy

Mar 2009 - Mar 2013

- Held an active Secret Security Clearance and led a six-person security detail in mission-critical environments.
- Earned a Letter of Commendation for leadership, accountability, and adherence to security protocols.
- Completed specialized training in leadership, diversity, team-building, communication, and operational readiness.

EDUCATION & TRAINING

Code Fellows, Seattle, WA - Advanced Software Engineering, 2019-2021

Columbia College, Whidbey Island, WA - Associate of Arts, General Studies, 2020

U.S. Navy Specialized Training - Leadership, Diversity, Team-Building, and Communication, 2009-2013

ADDITIONAL QUALIFICATIONS

- U.S. Navy Veteran with a background in security operations, leadership, accountability, and high-pressure decision-making.
- Strong product mindset with hands-on experience taking web products from planning and UI design through implementation, testing, deployment, and maintenance.
- Open to full-stack and frontend-focused roles in the Seattle area or remote.
