SUMMARY

Full-stack **Software Engineer** and **U.S. Navy Veteran** with 4 + years of professional coding experience and a background in security operations. Deliver scalable, user-focused web products with **Next.js**, **Tailwind CSS**, **Node.js**, and **Spring Boot**. Proven record of driving quality through automated testing (**Cypress**, **Playwright**) and secure cloud architecture (**Azure AD**, **MSAL**, **Docker**). Known for clear communication, disciplined execution, and leadership under pressure.

CORE TECHNICAL SKILLS

Front End: JavaScript (ES6+), React, Next.js, Tailwind CSS, HeroUI
Back End: Node.js, C#, Spring Boot, ASP.NET Core MVC, REST APIs
Auth / Security: Azure AD (MSAL), Iron-session, JWT
CMS & Media: Strapi, WordPress (Headless), Hygraph, BunnyCDN
Testing: Cypress, Playwright, Jest, Pytest, xUnit
Databases: PostgreSQL, MongoDB, DynamoDB, Firebase
Cloud & DevOps: Azure, AWS, Docker, Heroku
Tools: Git / Git Bash, VS Code, IntelliJ, Swagger, JDBC

PROFESSIONAL EXPERIENCE

Software Engineer – *Helio Genomics* (Remote)
Nov 2021 – Jun 2025

- Developed and maintained public-facing healthcare websites using **React** and **Next.js**, ensuring responsive design and optimized user experience across desktop and mobile devices.
- Implemented secure authentication flows including **Azure AD SSO**, **JWT-based session handling**, and **NextAuth with Iron Session**, integrating with **Spring Boot** backends for HIPAA-compliant access.
- Designed and built RESTful APIs and backend services using **Spring Boot**, focusing on scalability, performance, and security in handling clinical data.
- Created internal and external dashboards for sensitive, HIPAA-regulated data, collaborating cross-functionally with product, design, and compliance teams.
- Modeled and optimized data in **PostgreSQL**, including schema design, migrations, and performance tuning for production.
- Integrated and managed **headless CMS solutions** (Strapi, WordPress, Hygraph) to support dynamic content and accelerate marketing updates.

- Automated critical workflows and regression testing using **JUnit**, **Playwright**, and **Cypress**, increasing test coverage and deployment confidence.
- Led and participated in **code reviews**, sprint planning, and internal knowledge sharing to foster best practices in an agile development environment.
- Containerized applications using **Docker** to streamline local development, CI/CD, and multi-environment deployments.

Security & Surveillance Specialist – *Swinomish Casino & Lodge, Anacortes WA*
Sep 2013 – Feb 2019

- Nominated for **MVP** after designing loss-prevention procedures estimated to save **\$250 K / year**.
- Streamlined CCTV workflows, trimming incident response time by 20 %.
- Defused high-tension situations through decisive communication and conflict-resolution skills.

Master-at-Arms (E-4) – *United States Navy*
Mar 2009 – Mar 2013

- Held active **Secret Security Clearance**; led 6-person security detail on domestic and overseas deployments.
- Earned **Letter of Commendation** for exemplary leadership and adherence to protocol.
- Completed advanced training in leadership, diversity, and team communication.

EDUCATION & CERTIFICATIONS

Code Fellows – Seattle, WA

- Advanced ASP.NET Core MVC – May 2020
- Advanced Python Software Engineering – Feb 2020
- Advanced JavaScript Software Engineering – Nov 2019

Columbia College – Whidbey Island, WA

- Associate of Arts, General Studies – 2020

U.S. Navy Specialized Training

- Leadership, Diversity, Team-Building & Communication – 2009 – 2013
